## FOOD MACHINERY

### CÁRNICO    PESCADO    VEGETAIS    FRIO    **CHAVE NA MÃO**

A sua visão é ser líder nacional no ramo de equipamentos e instalações para a indústria da carne, ser um forte competidor no fornecimento de soluções e tecnologias para o mercado do pescado, vegetais e outras áreas alimentares e, simultaneamente, fortalecer a sua presença nos mercados internacionais prestigiando os produtos portugueses.

A Silco encontra-se no mercado criando parcerias técnicas e comerciais com os seus clientes, desenvolvendo os seus produtos e serviços em estreita ligação com estes, de forma a obter soluções que optimizem as vertentes da produtividade, ergonomia, meio ambiente, e sobretudo a relação equilibrada custo/benefício.

A Silco está atenta às alterações do mercado mantendo-se na vanguarda técnica da sua fileira. Para isso mantém sempre um nível de motivação elevado dos seus colaboradores proporcionando boas condições de habitabilidade dentro da empresa, quer ao nível das condições de trabalho, quer das condições sociais.

Esta preocupação é extensível à preservação do meio ambiente, utilizando o mais possível materiais que possam ser reciclados, motores e máquinas eléctricas de elevada eficiência e materiais o mais possível "Amigos do Ambiente".

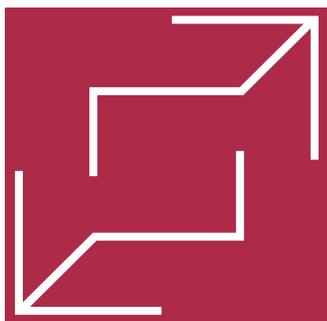

A sua missão é proporcionar ao mercado alimentar, a nível nacional e internacional, equipamentos eficientes e instalações modernizadas, de acordo com as actuais exigências regulamentares da União Europeia para a segurança, higiene e ambiente.

A Silco utiliza os seus conhecimentos para o desenvolvimento de novos produtos ou melhoria dos que já fabrica, contribuindo para o aumento da qualidade dos produtos fabricados pelos seus clientes, proporcionar a possibilidade de incremento da produção, aumentar a qualidade das condições de trabalho dos operadores dos equipamentos e participar de forma objectiva para o desenvolvimento harmonioso do planeta.

**Características**

- Mesas centrais e mesas murais com alçado de 100 mm de altura e cantos arredondados.
- Tapos com 50 mm de espessura.
- Profundidade de 500, 600, 700 mm.
- Mesas fornecidas montadas e desmontadas.
- Construção em aço inoxidável.
- Tapos insonorizados e boleados.
- Pés reguláveis em altura.
- Facilidade e rapidez de montagem.
- Construção robusta e sólida.

**Features**

- Central working tables and working tables with splash back 100 mm high and rounded corners.
- 50 mm high worktops.
- Depth available 500, 600, 700 mm.
- Tables can be supplied assembled or disassembled.
- Built in stainless steel.
- Sound-deadened worktops.
- Adjustable feet.
- Fast and easy to assemble.
- Stable, sturdy and reliable.

**Caractéristiques**

- Table de travail centrales et table de travail avec dossier de hauteur 100 mm et angles arrondis.
- Plan de travail de hauteur 50 mm.
- Profondeurs 500, 600, 700 mm.
- Tables fournies montées ou démontées.
- Fabrication en acier inoxydable.
- Plan de travail insonorisé.
- Pieds réglables en hauteur.
- Facilité de montage.
- Robustesse et fiabilité.

Mesa mural  
Working tables with splashback  
Tables de travail avec dossier

### Características

- Mesas centrais e mesas murais com alçado de 85 mm de altura.
- Tapos com 40 mm de espessura.
- Profundidade de 500, 600, 700 mm.
- Mesas fornecidas montadas e desmontadas.
- Construção em aço inoxidável.
- Tapos insonorizados.
- Pés reguláveis em altura.
- Facilidade e rapidez de montagem.
- Construção robusta e sólida.

### Features

- Central working tables and working tables with splash back 85 mm high.
- 40 mm high worktops.
- Depth available 500, 600, 700 mm.
- Tables can be supplied assembled or disassembled.
- Built in stainless steel.
- Sound-deadened worktops.
- Adjustable feet.
- Fast and easy to assemble.
- Stable, sturdy and reliable.

### Caractéristiques

- Table de travail centrales et table de travail avec dossier de hauteur 85 mm.
- Plan de travail de hauteur 40 mm.
- Profondeurs 500, 600, 700 mm.
- Tables fournies montées ou démontées.
- Fabrication en acier inoxydable.
- Plan de travail insonorisé.
- Pés réglables en hauteur.
- Facilité de montage.
- Robustesse et fiabilité.

## Mesas de preparação

### Processing tables · Tables de préparation

TB TD

Mesa de preparação de carne  
Meat processing table  
Table de préparation pour viande

Mesa de preparação de peixe  
Fish processing table  
Table de préparation pour poisson

Mesa de preparação de frutas e vegetais  
Vegetable processing table  
Table de préparation pour légumes

#### Características

- Construção em aço inoxidável.
- Placa de polietileno com 20 mm espessura de cor castanha para carnes, azul para peixe e verde para frutas e legumes.
- Profundidades de 600 ou 700 mm.
- Furo ½" para esgotamento de água.
- Orifício para despejo de lixo.
- Plano de trabalho perfurado.
- Pés reguláveis.

#### Features

- Manufactured in stainless steel.
- Polyethylene top with 20 mm of thickness for product processing.
- Brown coloured for meat, blue coloured for fish and green for fruit and vegetables processing.
- 600 and 700 mm depth available.
- ½" Hole for drainage.
- Waste hole.
- Perforated working top.
- Adjustable feet.

#### Caractéristiques

- Fabrication en acier inoxydable.
- Plaque de découpe en polyéthylène d'épaisseur 20 mm pour préparer les produits.
- Couleur marron pour la viande, bleu pour poisson et vert pour préparation des fruits et légumes.
- Profondeurs de 600 mm et 700 mm.
- Trou sortie d'eau ½".
- Avec trou vide-déchets.
- Plan de travail perforé.
- Pieds réglables.

## Tamos de lavadouro - tampo boleado Sink range - rounded worktop · plonges - dessus arrondi

Tampo c/ 1 cuba + escorredouro  
Single bowl sink top with drainer  
Dessus de plonge avec 1 bac et égouttoir

Tampo c/ 2 cubas + escorredouro  
Sink top with 2 bowls + drainer  
Dessus de plonge avec 2 bacs et égouttoir

Tampo c/ 1 cuba  
Single bowl sink top  
Dessus de plonge avec 1 bac

Tampo c/ 2 cubas  
Double bowl sink top  
Dessus de plonge avec 2 bacs

### Características

- Construção em aço inoxidável.
- Tampo estampado.
- Tamos com 50 mm de espessura e boleado.
- Saída de esgoto 1 ½".
- Profundidade de 600 e 700 mm.
- Insonorização da parte inferior da cuba.
- Alçado com 100 mm de altura.
- Com cuba de grande capacidade no modelo de profundidade de 700 mm.
- Suportes como opcional.

### Features

- Manufactured in stainless steel.
- Pressed working top.
- 50 mm high worktops.
- 1 ½" Drain.
- Depth of 600 and 700 mm.
- Soundeened worktops.
- 100 mm splash-back.
- Depth of 700 with large capacity bowl available.
- Optional frames.

### Caractéristiques

- Construction an acier inoxydable.
- Dessus de travail pressé.
- Plan de travail de hauteur 50 mm.
- Sortie d'eau 1 ½"
- Profondeur de 600 et 700 mm.
- Plans de travail insonorisés.
- Dossieret de hauteur 100 mm.
- Possibilité de bacs avec grand capacité dans le modelé.
- Structures en option.

Dismantled Frames  
Structures Démontées

### Características

- Construção em aço inoxidável.
- Fortes elementos estruturais.
- Profundidade de 600 mm ou 700 mm.
- Pés Reguláveis.
- Saia Frontal.

### Features

- Manufactured in stainless steel.
- Strong Structural elements.
- Depth of 600 mm or 700 mm.
- Adjustable feet.
- Sink front panel.

### Caractéristiques

- Fabrication en acier inoxydable.
- Structures Robustes et solides.
- Profondeur de 600 mm ou 700 mm.
- Pieds réglables en hauteur.
- Habillage frontal cache bac.

TD

Lavadouro com portas  
Sink with sliding doors  
Plonges avec portes coulissantes

#### Características

- Construção em aço inoxidável.
- Fortes elementos estruturais.
- Tampo estampado.
- Tapos com 40 mm de espessura e boleado.
- Lavadouros com prateleira inferior.
- Portas deslizantes.
- Saída de esgoto 1 ½".
- Profundidade de 600 mm.
- Respeita as normas de higiene em vigor.
- Insonorização da parte inferior da cuba.
- Alçado com 85 mm de altura.
- Pés reguláveis.

#### Features

- Manufactured in stainless steel.
- Strong Structural elements.
- Pressed working top.
- 40 mm high worktops.
- Sinks with lower shelf.
- Sliding doors.
- 1 ½" Drain.
- Depth of 600 mm.
- Made in full compliance with hygiene standards.
- Soundened worktops.
- 85 mm splashback.
- Adjustable feet.

#### Caractéristiques

- Construction an acier inoxydable.
- Structures robustes et solides.
- Dessus de travail pressé.
- Plan de travail de hauteur 40 mm.
- Plonges avec étagère inférieure.
- Portes coulissantes.
- Sortie d'eau 1 ½"
- Profondeur de 600 mm.
- Respect des normes en vigueur en matière d'hygiène.
- Plans de travail insonorisés.
- Dosseret de hauteur 85 mm.
- Pieds réglables en hauteur.

Sifão simples  
Single syphon  
Siphon simple

Sifão duplo  
Double syphon  
Siphon double

### Características

- Sifões duplo e simples.
- Sifões em pvc.
- Entrada do sifão 1 ½".
- Saída do sifão em tubo de ø 40 mm.

### Features

- Single and double syphons.
- Plastic syphons.
- Water in 1 ½".
- Water out in round tube of ø 40 mm.

### Caractéristiques

- Siphons simples et double.
- Construction en plastique.
- Entrée d'eau 1 ½".
- Sortie d'eau en tube rond de ø 40 mm.

## Lava mãos Hand washing unit · lave mains

Lava mãos de joelho  
Knee operated model  
Lave mains à genoux

### Características

- Fiáveis e robustos.
- Construção em aço inoxidável.
- Cuba estampada numa peça só.
- Comando de joelho.
- Alçado traseiro de 85 mm de altura.
- Torneira simples ou misturadora.

### Features

- Strong and reliable.
- Built in stainless steel.
- Single pressed bowl.
- Knee operated model.
- 85 Mm high splashback.
- Cold or mixed water tap.

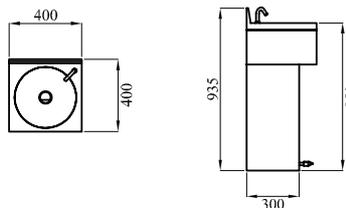

### Caractéristiques

- Fiables et robustes
- Fabrication en acier inoxydable.
- Cuve pressée dans une pièce.
- Fonctionnement à genoux.
- Dossieret de hauteur 85 mm.
- Robinet mélangeur ou eau simple.

## Estanteria modular gamas 370 /470 Modular shelving range 370/470 · Rayonnage modulaire 370/470

### Características

- Prumos anti corrosão em alumínio anodizado 15 microns.
- Grelhas laváveis com buracos ovalados (consultar para lisas) em polietileno de alta densidade.
- Temperatura entre -30°C e +75°C.
- Capacidade de suporte 120 kg por prateleira.
- Possibilidade de níveis entre 2 e 10.
- Cor standard cinzento (para outras cores consultar fábrica).

### Features

- Anti-corrosion posts in anodized aluminium with 15 microns.
- Washable high density polyethylene grills with oval holes (without holes under consultation).
- Holds temperatures between -30°C and +75°C.
- Load capacity of 120 kg per rack.
- Possibility of 2 to 10 tiers.
- Standard grey (other colours available).

### Caractéristiques

- Échelles anti-corrosion en aluminium anodisé de 15 microns.
- Clayettes lavables en polyéthylène haute densité avec trous ovales (sans trous sur demande).
- Températures entre -30°C et +75°C.
- Capacité de charge 120 kg/niveau.
- Possibilité de niveaux entre 2 et 10.
- Standard couleur gris (pour autres couleurs consulter l'usine).

## Mesas estufa

### Heated cupboards · Étuve

TB TD

Mesa estufa  
Heated cupboard  
Étuve

#### Características

- Construção em aço inoxidável.
- Tampo em aço pode ser central ou mural.
- Opção de portas de ambos os lados.
- Tampo com 50 mm de espessura.
- Pés reguláveis.
- Controlador digital.
- Prateleira intermédia.
- Portas deslizantes.
- Aquecimento por meio de resistência e ventilação.

#### Features

- Built in stainless steel.
- Central or mural stainless steel top.
- Version with pass through doors available.
- 50 Mm high worktop.
- Adjustable feet.
- Digital thermostat.
- Intermediate shelf.
- Sliding doors.
- Ventilated heating.

#### Caractéristiques

- Fabrication en acier inoxydable.
- Dessus murales ou centrales en acier inoxydable.
- Modèles passantes ou murales
- Plateau de dessus avec hauteur de 50 mm.
- Pieds réglables.
- Thermostat digital.
- Étagère intermédiaire.
- Portes coulissantes.
- Chauffage ventilé.

## Carros Banho-maria Bain-marie trolley · Chariots bain marie

Carro banho-maria  
Bain-marie trolley  
Chariots bain marie

CBME2GN

CBME3GN

### Características

- Construção em aço inoxidável.
- Banho-Maria com estufa.
- Desenhado para o transporte, manutenção e distribuição de comida.
- Aquecimento indirecto através de resistências.
- Controlo termoestático independente para cuba banho-maria e para estufa.
- Torneira para vazamento da cuba.
- Rodas com 150 mm de diâmetro.
- Duas rodas com travão e duas sem travão.
- Cuba com 200 mm de profundidade.
- Fornecido com cabo de alimentação espiralado.
- Estufa com capacidade para 4 contentores GN1/1 para o modelo CBME2GN.
- Estufa com capacidade para 6 contentores GN1/1 para o modelo CBME3GN.

### Features

- Manufactured in stainless steel.
- Bain-Marie with heated reserve.
- DesiGN for transport, temperature preservation and food distribution.
- Indirect heating through heating elements.
- Independent thermostat for the bain-marie and for the heated reserve.
- Drainage.
- 150 mm diameter castors.
- Two wheels with brakes and two without.
- 200 mm Depth well.
- Supplied with coiled cable.
- Heated reserve with capacity for 4 GN 1/1 containers for model CBME2GN.
- Heated reserve with capacity for 6 GN 1/1 containers for model CBME3GN.

### Caractéristiques

- Fabrication en acier inoxydable.
- Bain Marie avec étuve.
- Transport, maintien en température et distribution des repas.
- Chauffage par résistances.
- Thermostat indépendant pour le bain marie et pour l'étuve.
- Robinet de vidange.
- Roulettes de 150 mm de diamètre.
- 2 Roulettes de frein et 2 sans.
- Cuve de profondeur 200 mm.
- Fournie avec câble.
- Fournie avec capacité pour 4 bacs GN1/1 pour le modèle CBME2GN.
- Étuve avec capacité pour 6 bacs GN1/1 pour le modèle CBM3GN.

## Hotes aspirantes induzidas compensadas centrais

Central hood with induction + compensation · Hottes centrales statique avec compensation + induction

### Características

- Construção em aço inoxidável.
- Altura de 750 mm.
- Fornecidas numa só peça até um comprimento de 2,9 m.
- Fornecidas sem filtros.
- Torneira de descarga de gordura.

### Features

- Stainless steel construction.
- Height of 750 mm.
- Supplied in one piece. Up to 2,9 m.
- Supplied without filters.
- Tap for draining off condensed fats.

### Caractéristiques

- Conçu en acier inoxydable.
- Hauteur de 750 mm.
- Sont livrées en modules monobloc jusqu'à une longueur de 2,9 m.
- Fournie sans filtres.
- Robinet de vidange du condensât d'huile.

Arrefecedor de água  
Bakery water coolers  
Refroidisseur d'eau

Arrefecedor de água horizontal  
Horizontal bakery water coolers  
Refroidisseur d'eau horizontale

Suportes de parede  
Wall brackets  
Système d'accrochage

### Características

- Arrefecedores de água especialmente desenhados para pastelaria e padaria.
- Construção em aço inoxidável.
- Controlador digital.
- Gás refrigerante R404A.
- Isolamento em poliuretano injectado e livre de CFC's com uma densidade de 40Kg/m<sup>3</sup>.
- Depósito e serpentina do evaporador em aço inoxidável.
- Modelos AA120 e AA200 verticais e modelo AAH80 em horizontal.
- Válvula de nível de água.
- Agitador de água.
- Tapa desmontável.
- Pés reguláveis.

### Acessórios

- Suportes de parede

### Features

- Bakery water coolers especially designed for bakery and pastry shops.
- Built in stainless steel.
- Digital thermostat.
- Using only refrigerants R404A.
- The polyurethane insulation is injected without using CFC's with a density of 40 kg/m<sup>3</sup>.
- Tank and evaporator in stainless steel.
- Vertical models AA120 and AA200 and model AAH80 in horizontal.
- Filling water automatic.
- Water mixer.
- Removable top.
- Adjustable feet.

### Accessories

- Wall brackets

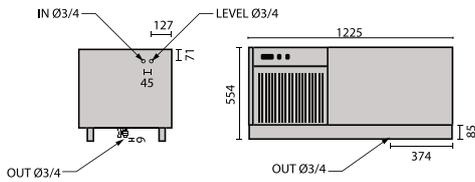

### Caractéristiques

- Refroidisseur d'eau spécialement conçu pour le secteur la boulangerie et le pâtisserie.
- Fabrication en acier inoxydable.
- Thermostat digital.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC avec une densité de 40 kg/m<sup>3</sup>.
- Cuve et serpentin en acier inoxydable.
- Modèles AA120 et AA200 vertical et modèle AAH80 horizontale.
- Remplissage automatique par flotteur.
- Agitateur d'eau.
- Dessus démontable.
- Pieds réglables.

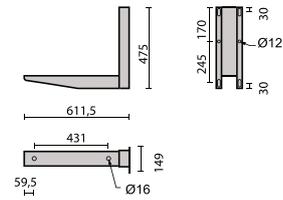

### Accessoires

- Système d'accrochage

### Características

- Interiores e exteriores em aço inoxidável.
- Painel traseiro em chapa galvanizada.
- Classe Climática 3.
- Os cantos internos, as guias facilmente removíveis e as grelhas permitem facilidade de limpeza e de higiene.
- Controlador digital com descongelação automática.
- Portas com fecho magnético e vedante de fácil substituição.
- Portas com puxador e dobradiças pivô incorporadas.
- Gás refrigerante R404A.
- Isolamento em poliuretano injectado livre de CFC's com uma densidade de 40Kg/m<sup>3</sup>.
- Pés em aço inoxidável reguláveis.

### Acessórios

- Tampo
- Prateleira extra
- Guias para prateleira
- Prateleira de ligação
- Kit rodas
- Paleta

### Features

- Exterior and interior constructed in stainless steel.
- Rear in galvanised metal.
- Climatic class 3.
- The internal corners, the easily removable runners and grids allow for easy cleaning and hygiene standards.
- Digital controller with automatic defrost.
- Self-closing doors with magnetic gasket. Door gaskets easy to replace.
- Hinged doors.
- Using only refrigerants R404A.
- The polyurethane insulation is injected without using CFC's with a density of 40 kg/m<sup>3</sup>.
- Adjustable stainless steel feet.

### Accessories

# Mesas Refrigeradas 700 sem unidade condensadora

## Refrigerated low counter without compressor 700 · Dessertes réfrigérées sans groupe logé 700

### Características

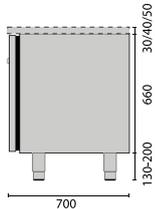

- Sistema de refrigeração ventilado.
- Iluminação interior para mesas com portas de vidro.
- Nas mesas refrigeradas com gavetas a 1ª porta tem de ser sempre uma porta por questões de ventilação.
- 1 prateleira por porta standard.

### Features

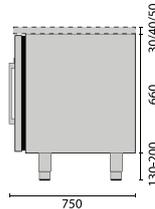

- Ventilated cooling system.
- Internal lighting on models with glass doors.
- For refrigerated tables with drawers. The first must, for technical reasons be a door.
- 1 shelf/door standard.

### Caractéristiques

- Réfrigération ventilée.
- Éclairage intérieur dans les versions avec portes en verre.
- Sur les dessertes réfrigérées avec tiroirs, la première section doit toujours être une porte, pour questions techniques.
- 1 étagère/porte standard.

## Armários frigoríficos Up-right reach-in refrigerators · Armoires réfrigérées

Armários frigoríficos GN 2/1 - 3 portas  
Reach-in refrigerators GN 2/1 - 3 doors  
Armoires réfrigérées GN2/1 3 portes

Pés reguláveis  
Adjustable feet  
Pieds réglables

Armários frigoríficos  
Up-right reach-in refrigerators  
Armoires réfrigérées

### Características

- Interiores e exteriores em aço inoxidável.
- Painel traseiro em chapa galvanizada.
- Os cantos internos, as guias facilmente removíveis e as grelhas permitem facilidade de limpeza e de higiene.
- Controlador digital com descongelação automática.
- Portas com fecho magnético e vedante de fácil substituição.
- Iluminação interior.
- Gás refrigerante R404A.
- Isolamento em poliuretano injectado livre de CFC's com uma densidade de 40Kg/m<sup>3</sup>.
- Kit de evaporação de condensados incluído.
- Para os modelos de temperatura negativa moldura das portas com resistência de aquecimento.
- Pés em aço inoxidável reguláveis.

### Acessórios

- Kit rodas
- Fechadura das portas
- Controlador digital
- Suporte prateleiras
- Prateleiras
- Prateleiras perfuradas
- Barra de carnes
- Palette

### Features

- Exterior and interior constructed in stainless steel.
- Rear in galvanized metal.
- The internal corners, the easily removable runners and grids allow for ease of cleaning and hygiene standards.
- Digital controller with automatic defrost.
- Self-closing doors with magnetic closure. Door gaskets easy to replace.
- Internal lighting.
- Using R404A refrigerant.
- The polyurethane insulation is injected in without using CFC's. With a density of 40 kg/m<sup>3</sup>.
- Evaporation kit included.
- For the freezer cabinets, there is a heating element in the door frames.
- Adjustable stainless steel feet.

### Accessories

- Castor kit
- Door locks
- Digital control
- Shelf slides
- Shelves
- Perforated shelves
- Internal hanging system
- Pallet

### Caractéristiques

- Fabrication intérieure et extérieure en acier inoxydable.
- Arrière en tôle galvanisée.
- Les coins internes, glissières et grilles tous amovibles, garantissant une facilité de nettoyage et le respect des normes d'hygiène.
- Régulateur électronique avec décongélation automatique.
- Portes avec fermeture magnétique et joints des portes interchangeables.
- Éclairage intérieur.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC et avec densité de 40 kg/m<sup>3</sup>.
- Kit réévaporation condensats inclus.
- Pour les modèles de température négative, il y a une résistance dans le cadre des portes.
- Pieds en acier inoxydable réglables.

### Accessoires

- Kit roulettes
- Fermeture à clé des portes
- Contrôle électronique
- Glissières
- Étagères
- Étagères perforées
- Grille pour crochets
- Palette

## Armários frigoríficos GN 2/1

Self-Service  
Self-Service · Self-Service

- Design sóbrio, altamente funcional e feito para durar.
- Construção em aço inoxidável.
- Pés em aço inoxidável reguláveis em altura, possibilitando a colocação de rodas em todos os elementos.
- A maior parte dos módulos estão disponíveis em 4 comprimentos: 725, 1125, 1450 e 2175 mm com profundidade de 750 mm, ângulos internos e externos e tampos de 70 mm arredondado.
- Elementos neutros, refrigerados e aquecidos.
- Possibilidade de elementos neutros por medida.
- Opção de incorporar prateleiras de vidro ou de aço inoxidável de 1 ou 2 níveis.
- Grande possibilidade de configuração e decoração.
- Iluminação LED.

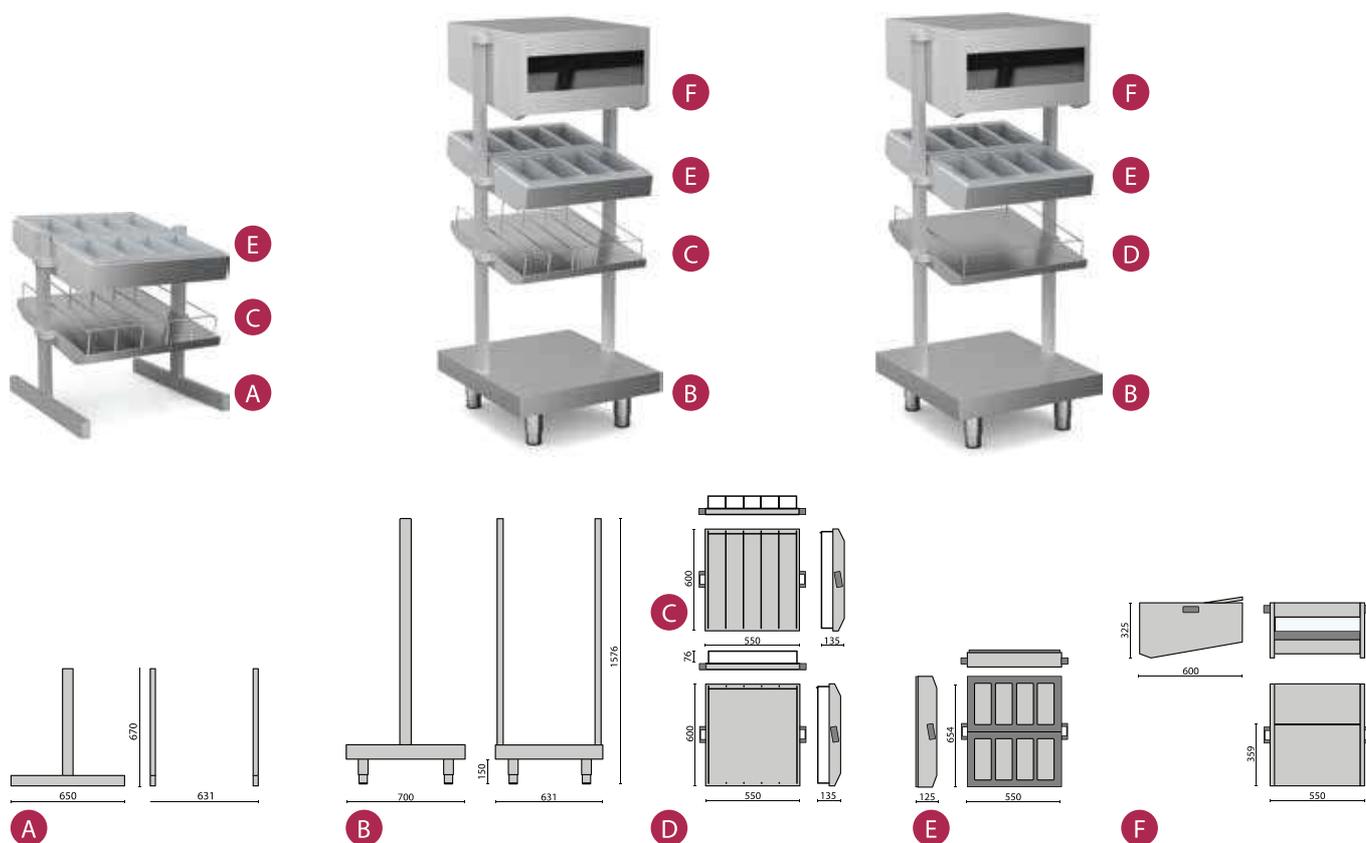

- Sober design, highly functional and built to last.
- Manufactured in stainless steel.
- Adjustable stainless steel feet. Castors available on all models as an option.
- Most units are available in 4 lengths: 725, 1125, 1450 and 2175 mm with a depth of 750 mm, internal and external corners, counter tops of 70 mm high and with rounded edges.
- Neutral, refrigerated and heated units.
- Ambient units made by measure available by request.
- 1 or 2 s/steel or glass shelves available.
- Wide variety of decorative panels as option.
- LED lighting.

- Design sobre, altamente funcional e feito para durar.
- Fabricação em aço inoxidável.
- Pés reguláveis em altura, com possibilidade de rodinhas.
- A maioria dos móveis são disponíveis em 4 comprimentos: 725, 1125, 1450 e 2175 mm com uma profundidade de 750 mm, interiores e exteriores ângulos e planos de trabalho espessura 70 mm com bordos arredondados.
- Móvel neutro, refrigerado e quente.
- Possibilidade de fabricação sob medida de móveis neutros.
- Opção de prateleiras em vidro ou aço inoxidável com 1 ou 2 níveis.
- Grande variedade de painéis decorativos em opção.
- Iluminação LED.

## Elementos de distribuição

### Dispenser units · Éléments de distribution

#### Características

- Distribuidor de pão com abastecimento pelo lado de serviço e recolha pelo lado do cliente.
- Distribuidor de talheres contém duas cubas em plástico GN1/1 com 4 divisões.
- Distribuidor de tabuleiros.
- Distribuidor de copos - base inclinada com 5 divisões em arame para +/- 25 copos.
- Distribuidor de racks de copos - base inclinada para racks de copos 500x500 mm (racks não incluídas).
- Elementos reguláveis em altura.
- Elementos independentes segundo as necessidades do cliente.

#### Features

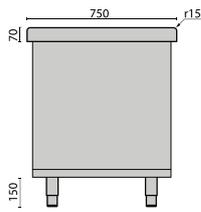

- Bread dispenser with rear fill and picking by the customer side.
- Cutlery dispenser contains two plastic lids GN1/1 with 4 compartments.
- Tray dispenser.
- Glass dispenser with 5 wire divisions suitable for +/- 25 glasses.
- Glass dispenser for glass rack 500x500 mm (racks not included).
- Adjustable height
- Independent units following customer's needs.

#### Caractéristiques

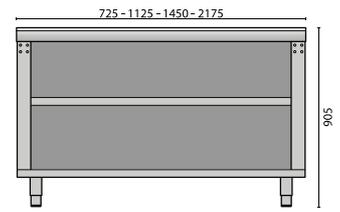

- Présentoir pour le pain avec remplissage côté service et côté client.
- Présentoir à couverts avec deux bacs en plastique GN1/1 avec 4 divisions chacun.
- Présentoir à plateaux.
- Présentoir à verres - base inclinée avec 5 divisions en grilles pour +/- 25 verres.
- Présentoir à casier de verre - base inclinée pour casier de verres 500x500. (casier non fournie).
- Éléments réglables en hauteur.
- Éléments indépendants selon le besoin du client.

## Elementos neutros Neutral units · Éléments neutres

Elemento neutro  
Neutral unit  
Meuble neutre

Elemento neutro com portas deslizantes  
Neutral unit with sliding doors  
Meuble neutre avec portes coulissantes

### Características

- Construção em aço inoxidável.
- Elemento neutro com ou sem portas de correr.
- Prateleira intermédia regulável.
- Possibilidade de gaveta no elemento neutro 725.
- Pés em aço inoxidável reguláveis.

### Features

- Manufactured in stainless steel.
- Neutral unit with or without sliding doors.
- Adjustable intermediate shelf.
- Drawer option available in 725 neutral model.
- Adjustable stainless steel feet.

### Caractéristiques

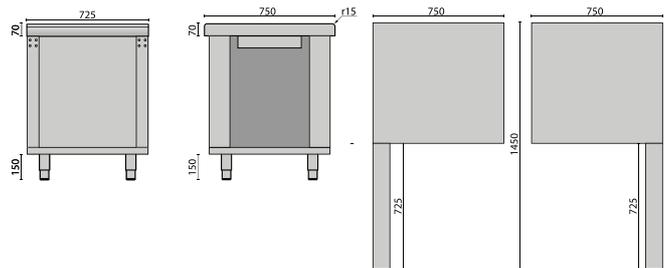

- Fabrication en acier inoxydable.
- Meubles neutres avec ou sans portes coulissantes.
- Étagère réglable en hauteur.
- Élément neutre de 725 possible avec tiroir.
- Pieds en acier inoxydable réglables.

## Elementos aquecidos Heated units · Meubles chauds

Banho Maria com ou sem estufa  
Bain marie with or without cupboard  
Bain marie avec ou sans étuve

Estufa  
Heated cupboard  
Étuve

### Características

- Construção em aço inoxidável.
- Elemento banho-maria com ou sem estufa.
- Cuba com rápido escoamento de água - saída 3/4".
- Banho maria - ligação hidráulica: entrada água 1/2" e saída água: 3/4".
- Cuba embutida de uma só peça com cantos arredondados para uma fácil limpeza.
- Sistema indirecto de aquecimento de cuba através de resistências eléctricas.
- Sistema de aquecimento da estufa através de resistência eléctrica com ventilação forçada.
- Controlador electromecânico regulável com termómetro analógico. Controlador digital em opção.
- Tomada de 230v/50Hz incluída.
- Pés em aço inoxidável reguláveis.

### Features

- Manufactured in stainless steel.
- Bain marie elements with and without heated cupboard.
- Fast water exit flow - 3/4" piping.
- Bain marie - water connection: in-1/2"; out-3/4".
- Well with rounded corners for better hygiene.
- Indirect heating system of the well through heating elements.
- Cupboard with heated ventilation system.
- Electromechanical controller adjustable with analog thermometer. Digital controller in option.
- 230v/50Hz socket included.
- Adjustable stainless steel feet.

### Caractéristiques

- Fabrication en acier inoxydable.
- Meubles bain marie avec/sans étuve.
- Sortie de l'eau plus rapide - sortie 3/4".
- Bain marie - liaison d'eau: entrée-1/2"; sortie-3/4".
- Pour faciliter le nettoyage, la cuve est construite avec des angles arrondis.
- Chauffage par résistance sous la cuve.
- Étuve ventilée.
- Contrôleur électromécanique réglable avec thermomètre analogique. Control électronique en option.
- Prise 230v/50Hz inclus.
- Pieds en acier inoxydable réglables.

## Elementos refrigerados

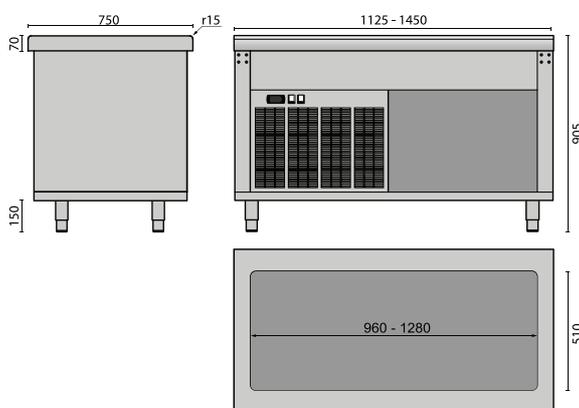

### Refrigerated units · Meubles réfrigérés

Elemento refrigerado com reserva  
Refrigerated unit with under storage  
Élément réfrigéré avec réserve

Elemento refrigerado sem reserva  
Refrigerated counter unit under storage  
Meuble réfrigéré sans réserve

#### Características

- Construção em aço inoxidável.
- Cuba embutida de uma só peça com cantos arredondados para uma fácil limpeza.
- Placa fria com 40 mm de profundidade e cuba refrigerada com 210 mm de profundidade.
- Vedantes das portas com magnético de fácil substituição.
- Refrigeração por convecção natural na reserva e por serpentina na cuba.
- Controlador digital com descongelação automática.
- Kit evaporação.
- Isolamento com poliuretano sem CFCs e com uma densidade de 40 kg/m<sup>3</sup>.
- Pés em aço inoxidável reguláveis.

#### Features

- Manufactured in stainless steel.
- Well with rounded corners for better hygiene.
- Refrigerated top with 40 mm depth and 210 mm refrigerated well.
- Easy to replace magnetic door gaskets.
- Under storage refrigeration is gravity chilled, well refrigeration by tubular system.
- Digital controller with automatic defrost.
- Evaporation kit.
- High pressure polyurethane foamed. CFC free, 40 kg/m<sup>3</sup> density.
- Adjustable stainless steel feet.

#### Caractéristiques

- Fabrication en acier inoxydable.
- Pour faciliter le nettoyage, la cuve est construite avec des angles arrondis.
- Plaque froide avec 40 mm profondeur et cuve réfrigérée avec 210 mm profondeur.
- Joint de porte magnétique facile à remplacer.
- Réfrigération par évaporateur statique pour la réserve et par serpentin pour la cuba.
- Régulateur électronique avec décongélation automatique.
- Kit réevaporation condensats.
- Isolation par mousse de polyuréthane sans CFC, avec une densité de 40 kg/m<sup>3</sup>.
- Pieds en acier inoxydable réglables.

## Vitrinas refrigeradas Refrigerated displays · Vitrines réfrigérées

Elemento refrigerado c/ vitrina refrigerada  
Refrigerated display with under storage  
Meuble réfrigérée avec vitrine réfrigérée

Vitrina refrigerada  
Refrigerated display  
Vitrine réfrigérée a poser

### Características

- Construção em aço inoxidável.
- 2 comprimentos disponíveis 4xGN1/1 ou 6xGN1/1
- Modelos com reserva refrigerada - capacidade GN1/1.
- Vidros laterais duplos.
- Portas de correr de vidro duplo do lado de serviço e portas eleváveis do lado do cliente.
- Funcionamento com uma unidade condensadora e com dois circuitos frigoríficos independentes.
- Cuba embutida de uma só peça com cantos arredondados para uma fácil limpeza.
- Placa fria com 40 mm de profundidade e cuba refrigerada com 210 mm de profundidade.
- Controlador digital com descongelação automática.
- Vedantes das portas com magnético de fácil substituição.
- Refrigeração por convecção natural na reserva, por serpentina na cuba e convecção forçada na vitrina.
- Kit evaporação.
- Isolamento com poliuretano sem CFC's e com uma densidade de 40Kg/m<sup>3</sup>.
- Pés em aço inoxidável reguláveis.

### Features

- Manufactured in stainless steel.
- 2 lengths available: 4xGN1/1 or 6xGN1/1.
- Models with under storage - GN1/1 capacity.
- Double glazed side glasses.
- Sliding doors on service side and metacrilate folding doors on customer side.
- Operates with one condensing unit and with two independent refrigeration circuits.
- Well with rounded corners for better hygiene.
- Refrigerated top with 40 mm depth and 210 mm refrigerated well.
- Digital controller with automatic defrost.
- Easy to replace magnetic door gasket.
- Under storage refrigeration is gravity chilled, well's refrigeration by tubular system and the display by fan assisted evaporator.
- Evaporation kit.
- Polyurethane insulation foamed by high pressure, CFC's-free, with a density of 40 Kg/m<sup>3</sup>.
- Adjustable stainless steel feet.

### Caractéristiques

- Fabrication en acier inoxydable.
- 2 longueurs disponibles 4xGN1/1 ou 6xGN1/1.
- Modèles avec réserve - capacité de GN1/1.
- Verres latéraux en verre double.
- Portes coulissantes côté service et volets acryliques côté clients.
- Fonctionnement avec un seul compresseur et avec deux circuits frigorifiques indépendants.
- Pour faciliter le nettoyage, la cuve est construite avec des angles arrondis.
- Plaque froide avec 40 mm profondeur et cuve réfrigérée avec 210 mm profondeur.
- Régulateur électronique avec décongélation automatique.
- Joint de porte magnétique facile à remplacer.
- Réfrigération par évaporateur statique pour la réserve, par serpentin pour la cuve et par évaporateur ventilé pour la vitrine.
- Kit réévaporation condensats.
- Isolation par mousse de polyuréthane sans CFC, avec une densité de 40 Kg/m<sup>3</sup>.
- Pieds en acier inoxydable réglables.

Iluminação LED  
LED Lighting  
Éclairage LED

Infravermelhos com iluminação LED  
Ceramic infrared heater with LED lighting  
Rampes céramique infrarouge avec éclairage LED

### Características

- Iluminação LED.
- Infravermelho com iluminação LED incorporada.
- Possibilidade de colocação de kit de iluminação em prateleiras de vidro curvo ou aço em elementos 1125, 1450 e 2175.
- Possibilidade de colocação de Kit infravermelhos em elementos 725, 1125, 1450 e 2175.
- Estes elementos não incluem prumos.

### Features

- LED lighting.
- Ceramic infrared heater with LED lighting.
- Illumination kits can be fitted into glass and stainless steel shelves (1125, 1450 and 2175 only).
- Inferred kits can be fitted to 725, 1125, 1450, 2175 units.
- These units do not include vertical support.

### Caractéristiques

- Éclairage LED.
- Rampes infrarouge avec éclairage LED.
- Possibilité d'éclairage sur les étagères en verre et en acier sur les éléments 1125, 1450 et 2175.
- Possibilité de rampes infrarouges sur les éléments 725, 1125, 1450 et 2175.
- Ces éléments n'incluent pas les montants.

Plano deslizante  
Tray slide support  
Rampes a plateaux

### Características

- Fabricado com tubo de aço inoxidável de Ø 30 mm.
- Modelos compatíveis com os diferentes módulos: 725, 1125, 1450 e 2175 mm e ângulos externos.

### Features

- 30 mm diameter built with stainless steel tubes.
- Compatible with the modular units: 725, 1125, 1450 and 2175 mm and external angles.

### Caractéristiques

- Construction en acier tube Ø 30 mm.
- Modèles disponibles pour les différents meubles: 725, 1125, 1450, 2175 mm et angles externes.

### Características

- Construção em aço inoxidável.
- Estruturas canalizáveis sem interrupções laterais.
- Isolamento em poliuretano injectado e livre de CFC's com uma densidade de 40Kg/m<sup>3</sup>.
- Esgoto no tampo.

### Features

- Manufactured in stainless steel.
- Units can be easily joined.
- The polyurethane insulation is injected in without using CFC's. With a density of 40 kg/m<sup>3</sup>.
- Top with drain.

### Caractéristiques

- Fabrication en acier inoxydable.
- Facilement accolables entre eux sans joints.
- Isolation en polyuréthane injecté sans CFC et avec densité de 40 kg/m<sup>3</sup>.
- Dessus avec égouttoir.

Comptoir Corsica Neutre

### Características

- Componentes totalmente modulares.
- Interiores em aço inoxidável.
- Elementos refrigerados classe climática 3 (25°C/60% R.H.).
- Isolamento com poliuretano injectado sem CFC's com densidade de 40Kg/m<sup>3</sup>.
- Tapos de cliente em granito.
- Pés reguláveis em altura.
- Rodapé em granito.
- 1 prateleira por porta nos refrigerados.
- Tampo de serviço com concepção higiénica.

### Features

- Modular line.
- Stainless steel work surface.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- The polyurethane insulation is injected in without using CFC's. With a density of 40 kg/m<sup>3</sup>.
- Granite bar tops.
- Adjustable feet.
- Granite plinth.
- 1 shelf per door.
- Hygienically fabricated worktop.

### Caractéristiques

- Conception modulaire: assemblage Évolutif.
- Intérieur en acier inoxydable.
- Élément réfrigérée class climatique 3(25°C/60% R.H.).
- Isolation en polyuréthane injecté sans CFC et avec densité de 40 kg/m<sup>3</sup>.
- Tablettes de client granit.
- Pieds réglables.
- Plinthes en granit.
- 1 étagère par porte.
- Dessus de travail fabriqué avec une conception hygiénique.

### Acessórios

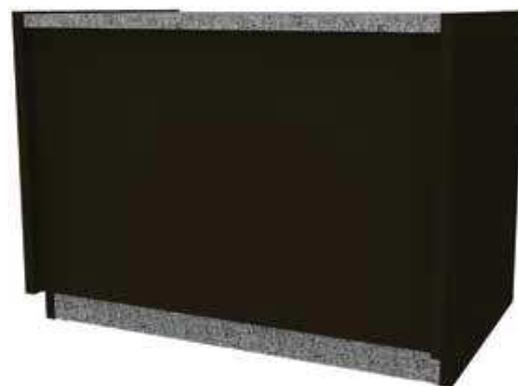

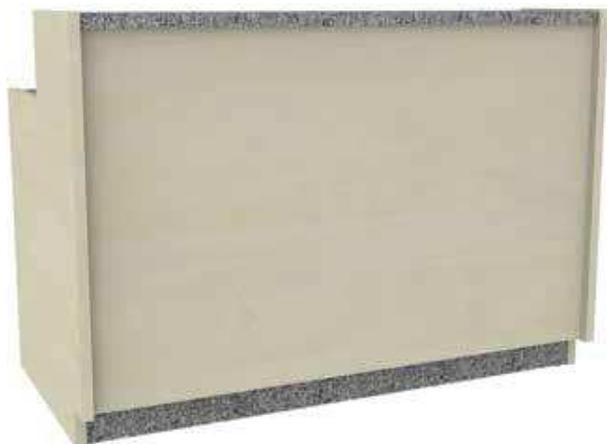

- Cuba de encastrar
- Cuba com escoadouro
- Cuba dupla com escoadouro
- Torneira
- Contentor de garrafa

### Accessories

- Round sinks to be inserted
- Sink
- Double sink
- Tap
- Bottles holders

### Accessoires

- Cuves rondes à encastrar
- Cuve avec égouttoir
- Cuve double avec égouttoir
- Robinet mélangeurs
- Porte-bouteilles

Vitrine Nassau

### Características

- Componentes totalmente modulares.
- Construção interior em aço inoxidável.
- Elementos refrigerados classe climática 3 (25°C/60% R.H.).
- Gama inclui vitrinas de ângulo esféricos.
- Possibilidade de móveis neutros de ângulos.
- Vitrinas com refrigeração ventilada.
- Isolamento com poliuretano injetado sem CFC's com densidade de 40Kg/m<sup>3</sup>.
- Vidros temperados curvos eleváveis hidráulicos.
- Resistência anti-condensação.
- Fácil limpeza.
- Tampo de serviço.
- Termómetro do lado do cliente.
- 2 prateleiras intermédias.
- Suportes de vidros e alumínio anodizados.

### Acessórios

- Portas de acrílico
- Kit evaporação
- Lateral de vidro
- Divisória vidro amovível
- Iluminação LED

### Features

- Modular line.
- Stainless steel work surface.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- The range includes spherical corner units.
- Ambient corners available.
- Ventilated cooling.
- CFC free polyurethane insulation with 40 kg/m<sup>3</sup> density.
- Hydraulic lift up front toughened glass.
- Anti-mist heating element.
- Easy to clean.
- Rear worktops.
- Digital temperature display.
- 2 internal shelves.
- Aluminium profiles and glass support structure supplied in silver anodised.

### Accessories

- Sliding acrylic rear doors
- Evaporation kit
- Side glass
- Portable glass dividers
- LED lighting

### Caractéristiques

- Conception modulaire: assemblage évolutif.
- Intérieur en acier inoxydable.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Vitrines d'angles sphériques.
- Possibilités d'angles.
- Froid ventilé.
- Isolation: polyuréthane injecté sur sans CFC's, avec une densité de 40 kg/m<sup>3</sup>.
- Vitres bombées trempée relevable.
- Cordon anti-condensation.
- Facilité de nettoyage
- Tablettes de service.
- Affichage digital côté service et côté client.
- 2 étagères intermédiaires.
- Supports et profilés aluminium couleur naturel.

### Accessoires

- Fermeture arrière
- Kit reévaporation condensats
- Vitre latéral
- Séparation mobile
- Éclairage LED

Vitrina Saona  
Saona Display  
Vitrine Saona

Reserva refrigerada  
Refrigerated under storage  
Réserve réfrigérée

### Características

- Componentes totalmente modulares.
- Interiores em aço inoxidável.
- Modelo refrigerado classe climática 3 (25°C/60% R.H.).
- Vitrinas com refrigeração ventilada.
- Isolamento com poliuretano injectado sem CFC's com densidade de 40Kg/m<sup>3</sup>.
- Iluminação.
- Vidros rebatíveis.
- Resistência anti-condensação.
- Fácil limpeza.
- Tampos de serviço.
- Termómetro do lado do cliente.
- Alumínios em cor natural.

### Acessórios

- Portas de acrílico
- Kit evaporação
- Lateral de vidro
- Divisória vidro amovível
- Iluminação LED

### Features

- Modular line.
- Stainless steel work surface.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- Ventilated cooling.
- CFC free polyurethane insulation with 40 kg/m<sup>3</sup> density.
- Lighting.
- Opening front glass.
- Anti-mist heating element.
- Easy to clean.
- Display worktop.
- Digital temperature display.
- Aluminium profiles supplied in silver anodized.

### Accessories

- Sliding acrylic rear doors
- Evaporation kit
- Side glass
- Portable glass dividers
- LED lighting

### Caractéristiques

- Conception modulaire: assemblage évolutif.
- Intérieur en acier inoxydable.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Froid ventilé.
- Isolation: polyuréthane injecté sur sans CFC's, avec une densité de 40 kg/m<sup>3</sup>.
- Éclairage.
- Vitrine relevables.
- Cordon anti-condensation.
- Facilité de nettoyage
- Tablettes de service.
- Affichage digital côté service et côté client.
- Profils aluminium couleur naturel.

### Accessoires

- Fermeture arrière
- Kit reévaporation condensats
- Vitre latéral
- Séparation mobile
- Éclairage LED

### Características

- Versões neutra, refrigerada, chocolate e aquecida.
- Elemento refrigerado classe climática 3 (25°C 60% RH).
- Sistema de refrigeração ventilado.
- Gás refrigerante R404A.
- Isolamento em poliuretano livre de CFC's com uma densidade de 40 kg/m³.
- Resistência anti-condensação frontal.
- Tabuleiro expositor em aço inoxidável.
- Portas posteriores em vidro duplo.
- Vidro frontal curvo simples (neutra e aquecida).
- Vidro frontal curvo duplo (refrigerada e chocolate).
- Vidros laterais duplos.
- 4 níveis de exposição e de iluminação.
- Grande volume de conservação.
- Comprimentos de 1000 e 1400 mm.
- Controlador digital.
- Termómetro digital (refrigerada e chocolate).
- Kit de evaporação.
- Pés reguláveis.

### Acessórios

- Iluminação LED.
- Kit rodas.
- Embalagem em madeira.

### Features

- Neutral, refrigerated, chocolate and heated version.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- Ventilated cooling system (forced air).
- Using only refrigerants (R404A).
- The CFC free polyurethane insulation and density of 40kg/m³.
- Anti-condensation frontal heating element.
- Display tray in stainless steel.
- Double glazed rear doors.
- Simple curved front glass (dry ambient and heated).
- Double curved front glass (refrigerated and chocolate).
- Double glazed side glasses.
- 4 display levels and interior lighting.
- Large volume of refrigeration.
- Lengths of 1000 and 1400 mm.
- Digital control.
- Digital thermometer (refrigerated and chocolate).
- Evaporation kit.
- Adjustable feet.

### Accessories

- LED lighting.
- Castors kit.
- Wooden crate.

### Caractéristiques

- Versions neutre, réfrigérées, chocolat et chaude.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Réfrigération ventilée.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC's et avec densité de 40 kg/m³.
- Cordon chauffant frontale.
- Plateaux d'exposition en acier inoxydable.
- Portes arrières en verre double.
- Verre frontal simple (neutre et chaude).
- Verre frontal double (réfrigérée et chocolat).
- Verres latéraux en verre double.
- 4 niveaux d'exposition et d'éclairage intérieur.
- Grande volume de réfrigération.
- Longueur de 1000 jusqu'à 1400 mm.
- Contrôle digital.
- Thermomètre digital (réfrigérée et chocolat).
- Pieds réglables.
- Kit réévaporation condensats.

### Accessoires

- Éclairage LED.
- Kit roulettes.
- Emballage en bois.

### Características

- Versões neutra e refrigerada.
- Elemento refrigerado classe climática 3 (25°C 60% RH).
- Sistema de refrigeração ventilado.
- Gás refrigerante R404A.
- Isolamento em poliuretano livre de CFC's com uma densidade de 40 kg/m<sup>3</sup>.
- Tabuleiro expositor em aço inoxidável.
- Portas posteriores em vidro duplo.
- Vidro frontal simples (neutra).
- Vidro frontal duplo (refrigerada).
- Vidros laterais duplos.
- 4 níveis de exposição e de iluminação.
- Resistência anti-condensação frontal.
- Grande volume de conservação.
- Comprimentos de 1000 e 1400 mm.
- Controlador digital.
- Termómetro digital.
- Kit de evaporação.
- Pés reguláveis.

### Acessórios

- Iluminação LED.
- Kit rodas.
- Embalagem em madeira.

### Features

- Neutral and refrigerated version.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- Ventilated cooling system (forced air).
- Using only refrigerants (R404A).
- The CFC free polyurethane insulation and density of 40kg/m<sup>3</sup>.
- Display tray in stainless steel.
- Double glazed rear doors.
- Simple front glass (dry ambient).
- Double front glass (refrigerated).
- Double glazed side glasses.
- 4 display levels and interior lighting.
- Anti-condensation frontal heating element.
- Large volume of refrigeration.
- Lengths of 1000 and 1400 mm.
- Digital control.
- Digital thermometer.
- Evaporation kit.
- Adjustable feet.

### Accessories

- LED lighting.
- Castors kit.
- Wooden crate.

### Caractéristiques

- Versions neutre et réfrigérées chaude.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Réfrigération ventilée.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC's et avec densité de 40 kg/m<sup>3</sup>.
- Plateaux d'exposition en acier inoxydable.
- Portes arrières en verre double.
- Verre frontal simple (neutre).
- Verre frontal double (réfrigérée).
- Verres latéraux en verre double.
- Cordon chauffant frontale.
- 4 niveaux d'exposition et d'éclairage intérieur.
- Grande volume de réfrigération.
- Longueur de 1000 jusqu'à 1400 mm.
- Contrôle digital.
- Thermomètre digital.
- Kit réevaporation condensats.
- Pieds réglables.

### Accessoires

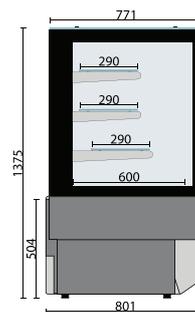

- Éclairage LED.
- Kit roulettes.
- Emballage en bois.

### Características

- Componentes totalmente modulares.
- Tampo expositor em aço inoxidável.
- Elemento refrigerado Classe Climática 3 (25°C/60% R.H.).
- Gama inclui vitrinas de ângulo.
- Possibilidade de móveis neutros de ângulos.
- Vitrinas com refrigeração ventilada.
- Isolamento com poliuretano injectado sem CFC's com densidade de 40Kg/m<sup>3</sup>.
- Iluminação com balastro electrónico.
- Painel lateral com 20 mm de espessura.
- Resistência anti-condensação.
- Fácil limpeza.
- Tampos de serviço em granito.
- Termómetro do lado do cliente.
- 1 prateleira intermédia.
- Suportes de vidros e alumínio em cor natural.

### Acessórios

- Portas de acrílico
- Kit evaporação
- Divisória vidro amovível
- Rodas

### Features

- Modular line.
- Stainless steel.
- Max. ambient temperature 25°C/60% R.H..
- The range includes corner units.
- Ambient corners available.
- Ventilated cooling.
- CFC free high pressure polyurethane insulation with 40 kg/m<sup>3</sup> density.
- Electronic lighting ballast.
- 20 mm thick side panels.
- Anti-mist heating element.
- Easy to clean.
- Rear granite worktops.
- Digital temperature display.
- 1 internal shelf.
- Aluminium profiles and glass support structure: Supplied in silver anodized.

### Accessories

- Sliding acrylic rear doors
- Evaporation kit
- Portable glass dividers
- Castors

### Caractéristiques

- Conception modulaire: assemblage Évolutif.
- Intérieur en acier inoxydable.
- Température max. ambiance 25°C/60% R.H..
- Vitrines d'angles.
- Possibilités d'angles.
- Froid ventilé.
- Isolation: polyuréthane injecté sur une machine de haute pression sans CFC's, avec une densité de 40 kg/m<sup>3</sup>.
- Éclairage nouvelle génération.
- Jous avec 20 mm d'épaisseur.
- Cordon anti-condensation.
- Facilité de nettoyage
- Tablettes de service granit.
- Affichage digital côté service et côté client.
- 1 tablette intermédiaire.
- Supports et profilés aluminium couleur naturel.

Vitrina Murano  
Murano Display  
Vitrine Murano

Interior  
Interior  
Intérieur

### Características

- Componentes totalmente modulares.
- Construção interior em aço inoxidável.
- Elemento refrigerado Classe Climática 3 (25°C/60% R.H.).
- Vitrinas com refrigeração ventilada.
- Isolamento com poliuretano injectado sem CFC's com densidade de 40Kg/m<sup>3</sup>.
- Iluminação LED.
- Resistência anti-condensação.
- Fácil limpeza.
- Tamos de serviço.
- Termómetro do lado do cliente.

### Features

- Modular line.
- Stainless steel work surface.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- The range includes spherical corner units.
- Ambient corners available.
- Ventilated cooling.
- CFC free polyurethane insulation with 40 kg/m<sup>3</sup> density.
- Hydraulic lift up front toughened glass.
- Anti-mist heating element.
- Easy to clean.
- Rear worktops.
- Digital temperature display.

### Caractéristiques

- Conception modulaire: assemblage évolutif.
- Intérieur en acier inoxydable.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Vitrines d'angles sphériques.
- Possibilités d'angles.
- Froid ventilé.
- Isolation: polyuréthane injecté sur sans CFC's, avec une densité de 40 kg/m<sup>3</sup>.
- Vitres bombées trempée relevable.
- Cordon anti-condensation.
- Facilité de nettoyage.
- Tablettes de service.
- Affichage digital côté service et côté client.

### Acessórios

- Portas de acrílico
- Kit evaporação
- Divisória vidro amovível

### Accessories

- Sliding acrylic rear doors
- Evaporation kit
- Portable glass dividers

### Accessoires

- Fermeture arrière
- Kit réevaporation condensats
- Séparation mobile

## Expositores de pão com gavetão

### Bread modules · Panetières

Expositores Pão c/ Gavetão  
Bread Modules  
Panetières

#### Características

- Desenhado para a exposição de produtos para padarias e pastelarias.
- Fabrico em 4 acabamentos: Faia; Cerejeira Nogueira e Wengué.
- Iluminação superior.
- Elemento de fácil montagem.
- Inclui proteção frontal acrílica sanitária.

#### Features

- Pés reguláveis. Designed for product display in bakeries.
- Options: Beech, Cherry, Dark Walnut and Wengue.
- Top Lighting.
- Easy to assemble.
- Hygienic acrylic protection.
- Adjustable feet.

#### Caractéristiques

- Panetières pour pâtisseries et boulangeries.
- Options de finition: Hêtre, Cerisier, Noyer et Wèngue.
- Éclairage supérieur par spots.
- Assemblage rapide par clips
- Protection frontale acrylique.
- Pieds réglables.

## Vitrina Display · Vitrine

Vitrina Refrigerada  
Refrigerated Display  
Vitrine Réfrigérée

### Características

- Versões para talho e charcutaria.
- Gama inclui vitrinas de ângulo.
- Grande superfície de exposição com 900 mm.
- Elemento refrigerado classe climática 3 (25°C 60% RH).
- Sistema de refrigeração ventilado.
- Gás refrigerante R404A.
- Isolamento em poliuretano livre de CFC's com uma densidade de 40 kg/m<sup>3</sup>. Reserva refrigerada.
- Interior em aço inoxidável.
- Tabuleiros em aço inoxidável.
- Defletor frontal em vidro transparente.
- Controlador digital.
- Termómetro digital.
- Iluminação interior superior para carne.
- Pés reguláveis.

### Acessórios

- Laterais em poliestireno com isolamento de espuma poliuretano.
- Laterais em aço inoxidável.
- Montantes para ligação em canal.
- Painéis decorativos.
- Decoração inferior com iluminação.
- Tampos de serviço.
- Iluminação LED.
- Prateleira intermédia.
- Portas de correr em acrílico.
- Kit de evaporação.
- Embalagem de madeira.

### Features

- Meat and deli models.
- The range includes corner units.
- Large display deck area.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- Ventilated cooling system (forced air).
- Using only refrigerants (R404A).
- The CFC free polyurethane insulation and density of 40kg/m<sup>3</sup>.
- Under storage.
- Stainless steel deck plate.
- Display trays in stainless steel.
- Frontal glass.
- Digital control.
- Digital thermometer.
- Internal lighting for meat.
- Adjustable feet.

### Accessories

- Polyurethane foamed side panels.
- S/steel side panels.
- Internal joining support.
- Decoration.
- Lighting under frontal decoration.
- Worktop.
- LED lighting.
- Internal shelf.
- Rear sliding acrylic doors.
- Evaporation kit.
- Wood package.

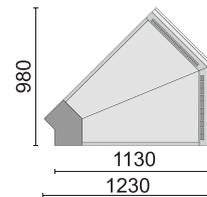

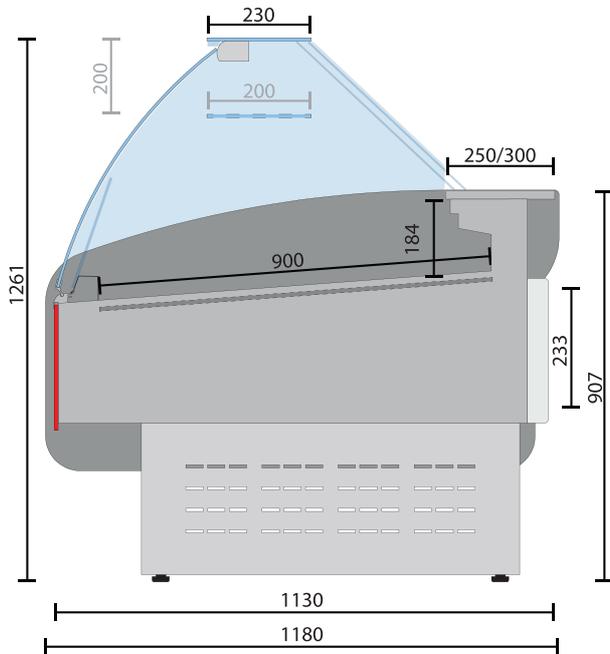

### Caractéristiques

- Versions pour charcuterie/viande emballée.
- Vitrines d'angles.
- Large plateau d'exposition avec 900 mm prof.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Réfrigération ventilée.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC's et avec densité de 40 kg/m<sup>3</sup>.
- Réserve réfrigérée.
- Intérieur en acier inoxydable.
- Plateaux d'exposition en acier inoxydable.
- Vitrage déflecteur frontal transparent.
- Contrôle digital
- Thermomètre digitale.
- Éclairage intérieur pour viande.
- Pieds réglables.

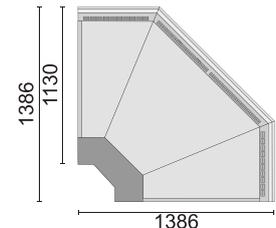

### Accessoires

- Joes en Polystyrène gris (isolant mousse polyuréthane).
- Joes en acier inoxydable.
- Colonne de liaison intérieure.
- Décoration.
- Éclairage en dessous de la décoration.
- Tablettes.
- LED éclairage.
- Tablette intermédiaire.
- Kit d'évaporation des condensats.
- Rampes a plateaux
- Emballage en bois.

## Vitrina multifunções refrigerada vidro curvo Curved glass serve-over counter · Vitrine service arrière - vitrage bombé

Vitrina refrigerada vidro curvo  
Curved glass serve-over counter  
Vitrine service arrière vitrage bombé

### Características

- Sistema de refrigeração estático e ventilado.
- Gás refrigerante R404A usado de acordo com as normas ambientais.
- Isolamento em poliuretano injectado a alta pressão e livre de CFC's com uma densidade de 40 kg/m<sup>3</sup>.
- Classe climática 3 (25°C 60% RH).
- Laterais em poliestireno (PS) com isolamento de espuma de poliuretano (PUR).
- Resistência anti-condensação frontal.
- Decoração frontal em poliestireno RAL 9003 (branco).
- Tampo de serviço em granito.
- Vidros laterais temperados.
- Uma prateleira de exposição.
- Reserva refrigerada.
- Controlador digital.
- Termómetro.
- Iluminação interior.
- Pés reguláveis.

### Acessórios

- Portas de correr em acrílico.
- Tabuleiros em aço inoxidável.
- Grades de exposição plastificadas.
- Painel decorativo frontal em outras cores.
- Kit de evaporação.
- Kit rodas.
- Embalagem de madeira.

### Features

- Cooling system static and/or ventilated.
- Using only R404A refrigerant that complies with environmental legislation.
- The polyurethane insulation is injected at high pressure without using CFC's. With a density of 40 kg/m<sup>3</sup>.
- Climate class 3 (25°C 60% RH).
- Polyurethane foamed side panels.
- Anti-condensation frontal heating element.
- Standard colour of front panel is white - RAL 9003
- Rear granite worktops.
- Toughened side glass.
- Intermediate glass shelf.
- Refrigerated Under storage.
- Digital control.
- Mechanical thermometer.
- Internal lighting.
- Adjustable feet.

### Accessories

- Rear sliding acrylic doors.
- Stainless steel deck plates.
- Wired step deck.
- Colour options for front panel.
- Evaporation kit.
- Castors kit.
- Wood package.

### Caractéristiques

- Réfrigération statique et ventilée.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté à haute densité sans CFC et avec densité de 40 kg/m<sup>3</sup>.
- Classe climatique 3 (25°C 60% RH).
- Joints en polystyrène gris (isolant mousse polyuréthane).
- Cordon chauffant frontal.
- Décor tôle peinte facilement interchangeable RAL 9003 (Blanc).
- Tablettes de service granit.
- Vitres latérales trempées.
- Une étagère.
- Réserve réfrigérée.
- Contrôle digital.
- Thermomètre mécanique.
- Éclairage intérieur.
- Pieds réglables.

### Accessoires

- Fermeture arrière plexiglas.
- Bac acier inoxydable.
- Grille plastifiée.
- Autres couleurs pour décor tôle.
- Kit réévacuation condensats.
- Kit roulettes.
- Emballage en bois.

Vitrine Murale Réfrigérée

#### Características

- Versões para bebidas, laticínios e charcutaria.
- Sistema de refrigeração ventilado.
- Gás refrigerante R404A.
- Isolamento em poliuretano livre de CFC's com uma densidade de 40 kg/m<sup>3</sup>.
- Elemento refrigerado classe climática 3 (25°C 60% RH).
- Laterais em poliestireno (PS) com isolamento de espuma de poliuretano (PUR)
- Decorações frontais em SkinPlate branco.
- Interior lacado a branco RAL 9003.
- Vidros laterais panorâmicos.
- Defletor frontal em vidro transparente.
- 4 prateleira de exposição reguláveis em altura e inclináveis.
- Cortina noturna.
- Controlador digital.
- Iluminação interior superior.
- Pés reguláveis.

#### Acessórios

- Painel decorativo superior e inferior frontal em outras cores.
- Kit grelhas frontais prateleiras.
- Kit perfil porta preços autoadesivo.
- Kit perfil porta preços encaixe.
- Kit iluminação nas prateleiras.
- Kit de evaporação.
- Plano deslizante.
- Embalagem de madeira.

#### Features

- Drink, dairy product and deli version.
- Cooling system ventilated.
- Using only refrigerants (R404A).
- The CFC free polyurethane insulation and density of 40kg/m<sup>3</sup>.
- Refrigerated elements climatic class 3 (25°C/60% R.H.).
- Polyurethane foamed side panels.
- White SkinPlate front panels decorations.
- Internal lacquered white coated RAL 9003.
- Panoramic side glass.
- Frontal glass.
- 4 shelves adjustable in height and tilt.
- Night blind.
- Digital control.
- Internal lighting.
- Adjustable feet.

#### Accessories

- Colour options for superior and inferior front panel.
- Kit frontal grille self risers.
- Kit stickers ticket strips.
- Kit ticket strips.
- Kit under self lighting.
- Evaporation kit.
- Tray slide support.
- Wood package.

#### Caractéristiques

- Versions pour boissons, laitiers et charcuterie emballée.
- Réfrigération ventilée.
- Utilisant les fluides réfrigérants R404A.
- Isolation en polyuréthane injecté sans CFC's et avec densité de 40 kg/m<sup>3</sup>.
- Élément réfrigérée classe climatique 3(25°C/60% R.H.).
- Jous en polystyrène gris (isolant mousse polyuréthane).
- Décoration frontale en SkinPlate blanc.
- Intérieur en tôle blanche RAL 9003.
- Vitres latérales trempée.
- Vitrage déflecteur frontal transparent.
- 4 étagères réglables en hauteur et inclinaison.
- Rideau de nuit.
- Contrôle digital.
- Éclairage intérieur.
- Pieds réglables.

#### Accessoires

- Autres couleurs pour décor tôle supérieur et inférieur.
- Kit grilles frontales.
- Kit porte-prix autocollant.
- Kit porte-prix amarrage.
- Kit éclairage par niveau.
- Kit d'évaporation des condensats.
- Rampes a plateau
- Emballage en bois.

## Separador de Gorduras Grease Trap WaterClean · Trappes à Graisse

Separador de Gorduras  
Grease Trap WaterClean  
Trappes à Graisse

### Características

Equipamento preparado para cozinhas domésticas e industriais.  
Estrutura em PE/AD ( Polietileno de alta densidade).  
Fechado hermeticamente, garante a ausência de cheiros e evita a proliferação de bactérias.  
Retém gorduras e resíduos sólidos.  
Equipado com 1 filtro descartável especial onde ficam retidas as gorduras e os resíduos sólidos, de fácil substituição.  
Tampa transparente para vigiar e controlar a saturação do filtro.  
Substituição do filtro feita com 2 dedos em 15 segundos.  
Instalação feita por baixo das cubas de lavagem das bancadas de cozinha.  
Fácil montagem.  
Pequenas dimensões.  
Compatível com tubos de ligação flexíveis de 50 mm de diâmetro.  
Equipamento ecológico, económico e sem manutenção.

### Features

Industrial and domestic kitchens.  
Construction in PE/AD.  
Hermetic closure, avoids smells and bacteria proliferation.  
Retains fat and solid waste.  
Equipped with a disposable filter.  
Transparent control cover.  
Easy to replace filters.  
To be installed underneath the sink.  
Easy to install.  
Compact dimensions.  
Suitable for 50 mm diameter connecting pipes.  
Ecological, economic and no maintenance.

### Caractéristiques

Préparée pour cuisines industrielles et domestiques.  
Construction en PE/AD.  
Fermeture hermétique pour éviter l'apparition de bactéries ou odeurs.  
Pour les graisses et déchets.  
Couverture transparente.  
Filtre jetable.  
Filtre facile à remplacer.  
Pour être installé sous les stands.  
Facile à installer.  
Dimensions compactes.  
Compatible avec les tuyaux flexibles de raccordement de 50 mm.  
Écologique, économiques et pas de manutention.

## Esterilizador de Facas Knife Sterilizer · Armoires de Désinfection

Esterilizador de Facas Mural  
Knife Sterilizer  
Armoires de Désinfection

### Características

Estrutura em aço inoxidável com acabamento esmerilado/scotch.

Esterilizador de facas mural.

Porta em acrílico com protecção contra raios UV.

Micro interruptor magnético na porta.

1 lâmpada germicida de raios UV G 15W T8.

Temporizador de esterilização regulável.

Fixador das facas tipo magnético (mod.:EFMM).

Fixador das facas tipo encaixe em teflon (mod.: EFMT).

Peso: 9,155 Kg.

### Features

Manufactured in stainless steel.

Wall mounted knife sterilises.

Acrylic door with UV protection.

Magnetic door microswitch.

Germicidal UV lamp.

Adjustable timer.

Magnetic knife hanger (mod.:EFMM).

Teflon knife support (mod.:EFMT).

Weight: 9,155 Kg.

### Caractéristiques

Construction en acier inoxydable.

Armoires de désinfections murales.

Portes en plexiglas avec protection UV.

Portes avec microswitch magnétique.

Lampe UV germicide.

Minuterie réglable.

Modèle barre magnétique (mod.:EFMM).

Modèle avec panier en teflon (mod.:EFMT).

Poid: 9,155 Kg.

## Electrocaçadores de Insectos Hanging Fly Trap · Désinsectiseurs à Plaque de Glu Suspendue

Electrocaçador de Insectos de Suspensão  
Hanging Fly Trap  
Désinsectiseurs à Plaque de Glu Suspendue

### Características

- Estrutura em aço inoxidável com acabamento esmerilado/scotch.
- Electrocaçador de insectos de suspensão.
- 2 correntes para suspensão (aprox. 400 mm cada).
- Base inferior em acrílico branco opalino.
- 1 lâmpada actínica de 15W G13 (350BL) T8.
- Captura por placa adesiva.
- 1 Placa adesiva com 270x450 mm.
- Aproximadamente 90 m<sup>2</sup> de área protegida.
- Peso: 3,000 Kg.

### Features

- Manufactured in stainless steel.
- Hanging fly trap.
- 2 chains hanging (400 mm aprox.)
- Base in acrylic.
- 15 W light bulb.
- Capturer flying insects with a glue pad.
- Supplied with 1 glue pad (270x450 mm).
- Covers 90 sq meters.
- Weight: 3 Kgs.

### Caractéristiques

- Construction en acier inoxydable.
- Désinsectiseurs à Plaque de Glu Suspendue.
- 2 suspensions de 400 mm.
- Base en acrylique.
- Tubes UV actiniques de 15 W.
- Capture les insectes sur les plaques de glu.
- Plaque de glu de 270x450 mm.
- Couverture: 90 m<sup>2</sup>.
- Poids: 3,000 Kg.

## Electrocaçadores de Insectos Wall Mounted Fly Trap · Désinsectiseurs à Plaque de Glu Murale

Electrocaçador de Insectos Mural  
Wall Mounted Fly Trap  
Désinsectiseurs à Plaque de Glu Murale

### Características

- Estrutura em aço inoxidável com acabamento esmerilado/scotch.
- Electrocaçador de insectos mural.
- Frontal em acrílico branco opalino.
- 1 lâmpada actínica de 15W G13 (350BL) T8.
- Captura por placa adesiva.
- 1 Placa adesiva com 175x450 mm.
- Aproximadamente 70 m<sup>2</sup> de área protegida.
- Peso: 2,625 Kg.

### Features

- Manufactured in stainless steel.
- Wall mounted fly trap.
- Frontal in acrylic.
- 15 W Light bulb.
- Capturer flying insects with a glue pad.
- Supplied with 1 glue pad (175x450)
- Covers 70 sq meters.
- Weight: 2.6 Kgs.

### Caractéristiques

- Fabrication en acier inoxydable.
- Désinsectiseurs à Plaque de Glu Murale.
- Frontale en acrylique.
- Tubes UV actiniques de 15 W.
- Capture les insectes sur les plaques de glu.
- Plaque de glu de 175x450 mm.
- Couverture: 70 m<sup>2</sup>.
- Poids: 2,625 Kg.

## BLOCOS CONFEÇÃO

### LINHA CONCEPT (600mm)

Novas formas de cozinhar interpretadas pelas novas gerações de chefs. Novos conceitos na restauração que provocaram, com o seu aparecimento, a posterior segmentação do mercado. Desde Catering & Banqueting, passando pela fast food, até chegar à restauração à vista do público. Angelo Po desenhou, projetou e fabricou uma gama única no mercado e ao mesmo tempo inovadora., posta ao serviço destas novas formas de cozinhar.

O seu nome é CONCEPT e conta com uma gama completa de produtos capazes de satisfazer as exigências da restauração moderna, respondendo a cada um dos seus requisitos: cozinhar num espaço reduzido (apenas 60cm de profundidade ) com uma prestação profissional.

### LINHA GAMMA ( 700mm)

Como resultado de uma rigorosa seleção, a série GAMMA é construída, na parte superior, com chapa de 12/10mm de espessura, o que representa mais 20% dos produtos similares existentes no mercado, garantindo um funcionamento duradouro e sem problemas estruturais.

Robustez que também existe na sua estrutura inferior, em aço inox 18-10, com queimadores e espalhadores em ferro fundido, grelhas para apoio às panelas muito robustas e chapas de grande espessura.

A fiabilidade é garantida pela utilização de componentes muito testados e pelos 80 anos de experiência Angelo Po.

## BLOCOS CONFEÇÃO

### LINHA ALPHA (900mm)

Com ALPHA 900 começa uma nova etapa no que se refere a design de cozinhas profissionais. A aplicação das mais recentes inovações tecnológicas faz do novo Alpha 900 um instrumento de qualidade decididamente superior que dá resposta de máximo nível quanto a prestações, funcionalidade, segurança e desenho. Já através do seu design Alpha 900 exprime o seu carácter: ergonomia e precisão absoluta até aos mínimos detalhes. Graças aos seus diferentes elementos modulares perfeitamente adaptáveis entre si e estanques, todos com bancada em aço inox AISI 304 espessura 20/10mm cortado a laser, é possível obter uma grande solidez nos vértices do segmento.

### LINHA OMEGA ( 1100mm )

Instalar o sistema de cozinhar OMEGA é a solução ideal quando o equipamento deve ser colocado no meio da cozinha, de modo a permitir a sua utilização de ambos os lados. As várias unidades modulares, todas em aço cortado a laser 18-10 com 20/10 de espessura, permitem uma junta perfeita entre módulos. Os cozedores de pasta e as fritadeiras cumprem os requisitos da UNI-EN 1672-2 standard.

O cumprimento de todas as regras de higiene, dominante em todos os produtos OMEGA, também se reflete na opção de instalar uma cuba em alvenaria ou aço inox, ou a utilização de uma bancada multi usos de 30/10 espessura em aço inox 18-10, permitindo uma ampla variedade de soluções com apenas 4 ou 6 pés em aço inox. Todos os produtos tem Certificação CE.

## ABATEDORES DE TEMPERATURA

### CHILLSTAR

### CARACTERÍSTICAS

- Estrutura em aço inox AISI 304/18-10;
- Câmara de arrefecimento com ângulos arredondados e furo de esgoto para os condensados do fundo.
- Isolamento em poliuretano de alta densidade, sem utilização dos gases CFC, com espessura de 75mm, à exceção dos modelos A=900 mm que tem espessura de 55mm.
- Painel para proteção da ventoinha de arrefecimento, extraível para uma perfeita limpeza do evaporador.
- Caixilharia desmontável produzida em aço inox AISI 304/18-10.
- Câmara de arrefecimento preparada para receber tabuleiros GN e tabuleiro de pastelaria.
- Porta reforçada reversível com dispositivo de fecho automático.
- Paragem da ventilação com abertura da porta (excluindo mod. DA...)
- Painel de comandos.

Preços sob consulta.

## FORNO MULTI FUNÇÕES FX

### FORNO FX

Foi desenhado para garantir a melhor relação qualidade preço quando o espaço é limitado, pois pode ser sobreposto em mais do que uma unidade e trabalharem todas em simultâneo. Permite pois duplicar as potencialidades de um espaço. Em complemento com a gama FX, é possível também, mantendo a qualidade gastronómica intacta, abater a temperatura e conservar os alimentos, adaptando-lhe um elemento abatedor sobreposto.

## FORNO MULTIFUNÇÕES BX

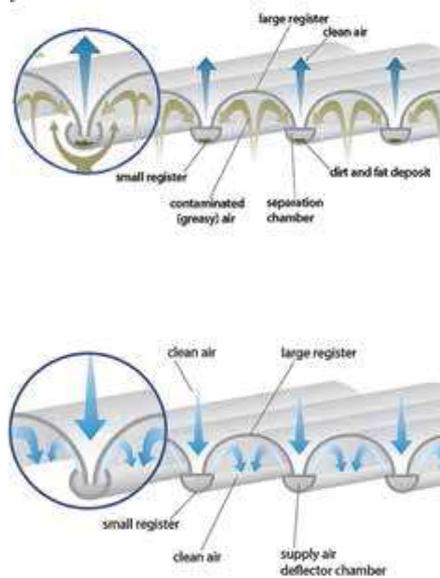

Desenhado para garantir a melhor relação qualidade preço nos modelos standard Angelo Po. Programação digital e dosificação automática da quantidade correta de calor necessária em cada momento do processo de confeção.

O Forno BX pode ser sobreposto quando o espaço é reduzido, duplicando as possibilidades de organização e permitindo o abatimento de temperatura quando complementado com equipamento Chillstar.

## TECTOS VENTILADOS MODULARES

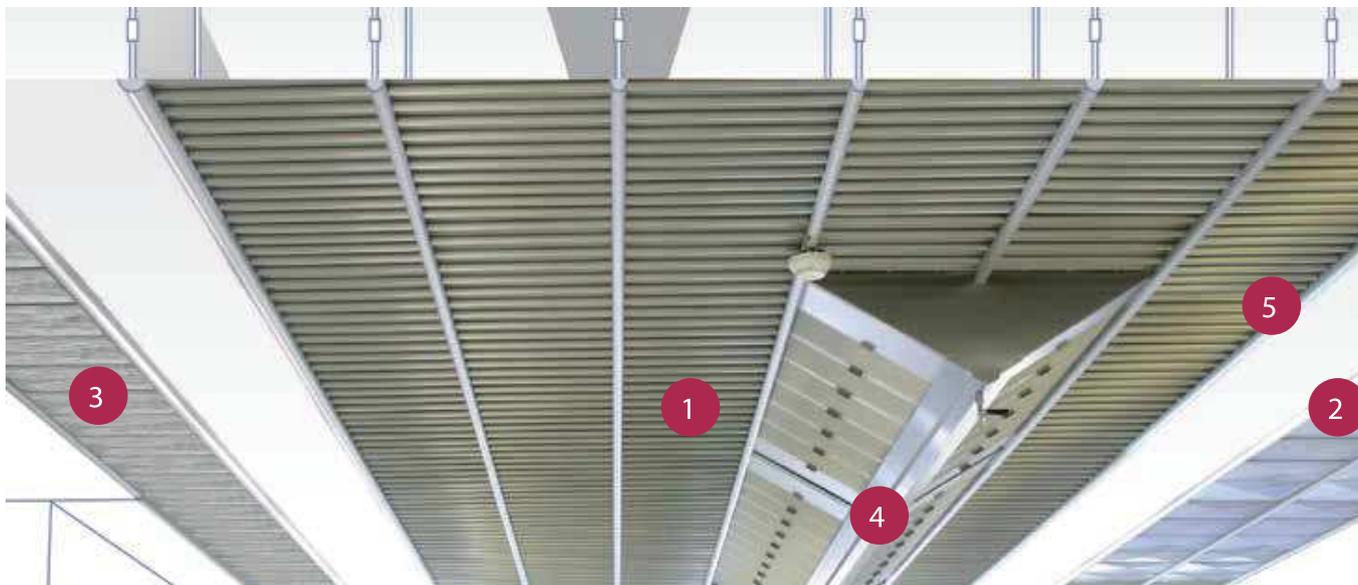

Todo o sistema de tetos ventilados Hidria Gif é composto por cassetes ativas de extração. Cada cassette ativa atua na zona de exaustão como um separador aerossol de acordo com as VDI 2052 e DIN 18869. As partículas separadas nas cassetes ativas são recolhidas dentro do registo mais pequeno.

Todas as cassetes ativas são fáceis de remover da grelha do teto e podem ser lavadas na máquina de lavar louça. Podem ser utilizadas para o fornecimento de uma ampla superfície de ar fresco e são intercambiáveis em qualquer configuração. O teto ventilado Hidria Gif, utilizando

as cassetes ativas encaixáveis, é 98% desmontável em qualquer ponto, quando necessário podem ser retiradas para serem lavadas na máquina de lavar louça, garantindo assim uma limpeza higiénica.

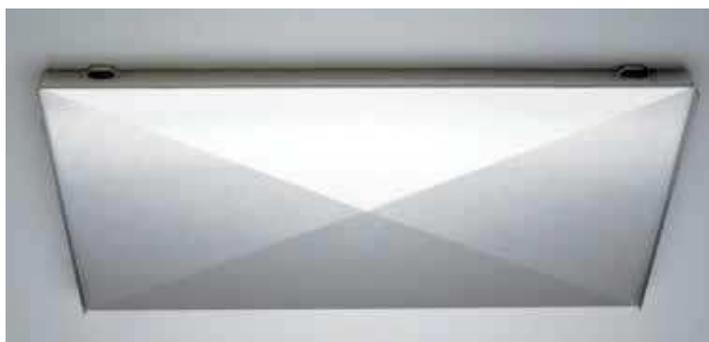

## GAMA DE PRODUTOS

### 1 - CASSETE ATIVA

Foi desenhado para garantir a melhor relação qualidade preço quando o espaço é limitado, pois pode ser sobreposto em mais do que uma unidade e trabalharem todas em simultâneo. Permite pois duplicar as potencialidades de um espaço. Em complemento com a gama FX, é possível também, mantendo a qualidade gastronómica intacta, abater a temperatura e conservar os alimentos, adaptando-lhe um elemento abatedor sobreposto.

### 2 - CASSETE DE INSUFLAÇÃO PLANA

Foi desenhado para garantir a melhor relação qualidade preço quando o espaço é limitado, pois pode ser sobreposto em mais do que uma unidade e trabalharem todas em simultâneo. Permite pois duplicar as potencialidades de um espaço. Em complemento com a gama FX, é possível também, mantendo a qualidade gastronómica intacta, abater a temperatura e conservar os alimentos, adaptando-lhe um elemento abatedor sobreposto.

## GAMA DE PRODUTOS

### 3 - CASSETE ACÚSTICA PLANA DE INSUFLAÇÃO

Foi desenhado para garantir a melhor relação qualidade preço quando o espaço é limitado, pois pode ser sobreposto em mais do que uma unidade e trabalhar em todas em simultâneo. Permite pois duplicar as potencialidades de um espaço. Em complemento com a gama FX, é possível também, mantendo a qualidade gastronómica intacta, abater a temperatura e conservar os alimentos, adaptando-lhe um elemento abatedor sobreposto.

### 4 - RESTAURANTES

(Áreas de confeção)

Separadores de alta produção permitem uma forte extração de ar acima dos equipamentos de confeção e utensílios com uma elevada emissão de gorduras e condensados. Higiene rigorosa através da utilização de aço inoxidável AISI304 (\*).

### 5 - ILUMINAÇÃO

(Confeção, empratamento, lavagem e zonas adjacentes)

Os elementos de iluminação montados no teto ventilado Hidria GIF garantem a melhor iluminação possível dos locais de trabalho de acordo com as atuais normas e diretivas. Dotado de luminárias estanques com IP54, são desenhadas para estabelecimentos de restauração de grande escala. A característica especial é a ligação de ar das luminárias dentro da zona de extração que gera uma cortina de ar difusor de policarbonato, protegendo-as da sujidade. Oferecemos também uma iluminação especial e acessórios, por exemplo, sobre as bancadas de empratamento (spots de luz, etc.).

### TETOS PLANOS

(Empratamento e zonas adjacentes)

Fabricados em alumínio (opcionalmente em epoxy) ou aço inoxidável AISI304, este sistema é especialmente adequado a áreas adjacentes ou auxiliares que não estejam expostos a cargas térmicas e vapores de confeção. Naturalmente este sistema de teto plano também inclui a gama completa de componentes para o fornecimento de ar fresco e iluminação.

### SISTEMA DE TRATAMENTO DE AR UV-C

(Proteção de planta)

Por mais de uma década a Hidra-GIF desenvolveu, planeou e instalou sistemas de tratamento aerosol. Os resíduos de gordura encontrados no caudal de ar de exaustão, após a separação através de aerosol, podem ser minimizados.

Diminuição do risco de incêndio nas condutas de ar.

Redução dos custos de limpeza.

Uma melhor higiene.

### EXTRATOR JATO DE AR

(Empratamento e cozinha frontal)

Cruzamento de correntes de ar que ocorrem em grandes cozinhas, reduzem substancialmente a eficiência das campanulas de extração tradicionais, com a subida dos vapores de confeção e a sua dispersão mesmo antes de chegarem à campanula. O extrator de jato de ar foi desenvolvido especificamente para esta área e durante muitos anos garantiu a captura total dos vapores da cozinha acima dos woks e grelhadores. A extração do ar poluído da sala é mantida num nível mínimo e os clientes podem respirar livremente outra vez.
